Welcome Mariëlle,

Thank you very much for registering to WritingPro: knowledge center for writing process research.

You are now able to:

- Search through the data repository, data collection & data analysis files
- Share data for the repository, data collection & data analysis

You can list and edit your shared projects in your personal contribution page which is always accessible via 'My contributions' in the right top corner of each page.

4

Share your data

Please fill in the information in step 1 until 4 and save the form. Next, you can upload your data. Note that this can take a while and the procedure needs to be completed at once.
